Beer Taps

Precision Co2 Regulator
C871

Features & Benefits:

- Our CO2 regulator is made with a brass body of the highest quality and can be used with various gases.
- 0-90 PSI and inlet gauge pressure 0-4500 PSI.
- The regulator comes with a precision diaphragm for more precise adjustment and a large body for high flow rates.
- A sizable adjustment knob is also included on the regulator for simple adjusting.
- Also applied to a variety of other gases, such as CO2, oxygen, argon, and helium.
- Ideal for Medium to Large Size Dispensing Systems.
- The most active bars and restaurants can meet their needs with designs of a commercial grade.
- for operating a gas blender or dispensing beer, wine, and cold brew.

Performance :

- **Outlet Gauge Pressure** - 0-90 PSI
- **Inlet Gauge Pressure** - 0-4500 PSI
- **Valve Type** - 5/16" Barb
- **PRV** - With PRV
- **GAS Type** - CO2

Material: Brass

Finish: Chrome Plated

Option Available:

Part No.	Part Name	Outlet
C073	Precision Secondary CO2 Regulator	1
C5610	Premium Nitrogen Primary Regulator – CGA thread	1
C5613	Precision Primary CO2 Regulator	1
C5614	Precision CO2 Regulator – CGA 320	2
