ABOUT US

Krome Dispense is a global manufacturer of beer dispensing equipment. Since its inception in 1999, we have been innovating products, including our energy efficient Glycol cold technology for beer towers. Most of our products are made in India and they exceed customer expectations with high quality and cost competitiveness over other European and Asian manufacturers. We stock over 3000 items in India, United States and distributor warehouses for global distribution.

Krome has established itself as a well-known brand in the beer industry. It finds encouragement in customer satisfaction through quality and reliable products. To focus on customer needs better, Krome Dispense has set up a subsidiary – Krome USA Inc. in Atlanta, Georgia. This brought us closer to our strong customer support and base of beer distributors, beverage system installers and restaurant chains. We strive to provide a cost-effective solution to their problems through our wide variety of products.

Our Krome USA facility works with North American draft system installers to complete single to multi-tap systems successfully and within promised delivery times.

Fermentation is a crucial step in homebrewing. Here, we play the role of an observant while the yeast works its magic. Fermentation is a dual step process - the primary step needs large steel or plastic buckets while the secondary step follows in plastic or glass carboys. Krome has a wide size range of containers and carboys along with fermenting accessories like the airlocks and hydrometer testing jars.

FERMENTERS AND ACCESSORIES

AIRLOCKS AND STOPPERS

RUBBER STOPPERS

Tapered rubber stopper to effectively seal carboy mouth for beer fermentation. Made of food safe material, this is a solid stopper. This is needed to block the entry of atmospheric gases – especially oxygen, to avoid unwanted microbial activity in the brew inhibiting the fermentation process.

Part No.	C6505	C6506	C6507	C6508	C6517	C017
Type	Drilled	Solid	Drilled	Drilled	Drilled	Solid
Size	Small	Small	Medium	Medium	Medium	Medium
Price	Each \$0.54	Each \$0.54	Each \$0.91	Each \$0.91	Each \$0.71	Each \$1.78
Standard Packaging	150	150		300		30

Features

- Easier Sealing when wet.
- Longer Taper than Standard Rubber Stoppers.
- Compatible with Standard Beer bottles.
- Suitable for glass carboys as well

3 PIECE FERMENTATION AIRLOCK

Fermentation lock or airlock is a device that provides a one way route to gases. It allows carbon dioxide released during fermentation to escape from the carboy while not allowing air to enter back in. This prevents oxidation. Rubber stoppers with a drilled hole sits on the mouth of the carboy and an airlock is fitted over it.

Part No.	C6501
Material	Plastic
Finish	Raw
Price	Each \$0.52

Features

- Simple to disassemble and clean out in the event of a blow-off.
- Works for both winemaking and beer brewing.
- Very easy to clean.
- Transparent in nature.

AIRLOCK WITH SMALL UNIVERSAL STOPPER

SET OF 2 , AFTER 3 PIECE FERMENTATION AIRLOCK

Fermentation lock or airlock is a device that provides a one way route to gases. It allows carbon dioxide released during fermentation to escape from the carboy while not allowing air to enter back in. This prevents oxidation.

Part No.	C6521
Packing	2 Pcs
Price	Each \$2.35

3 PIECE FERMENTATION AIRLOCK

Fermentation lock or airlock is a device that provides a one way route to gases. It allows carbon dioxide released during fermentation to escape from the carboy while not allowing air to enter back in. This prevents oxidation. Rubber stoppers with a drilled hole sits on the mouth of the carboy and an airlock is fitted over it.

Part No.	C6514
Material	Silicon
Price	Each \$0.66
	20+ \$0.63

Features

- Made of plastic.
- Easy to Use.
- Transparent in nature.

FERMENTERS AND ACCESSORIES

AIRLOCKS AND STOPPERS

GROMMET FOR 3PCS AIRLOCK - 2 PIECES PACK

Fermentation lock or airlock is a device that provides a one way route to gases. It allows carbon dioxide released during fermentation to escape from the carboy while not allowing air to enter back in. This prevents oxidation. Rubber stoppers with a drilled hole sits on the mouth of the carboy and an airlock is fitted over it.

Part No.	C6502X2	Standard Packaging:- 200
Material	Nitrile Rubber	
OD	3/4"	
ID	7/16"	
Thickness	1/4"	
Price	Each \$0.28	

Features

- Made from food safe silicon. Doesn't chip and flake up.
- The grommet allows for easy installation into a bucket lid and provides a good seal.
- Use with airlock for securing airlock during fermentation.
- Holds the inserted airlock tight and secure.
- The Grommet will help maintain the ferment for a longer period.
- Grommets for 15, 25, 30 and 60 litre fermenter homebrew.

BREWING THERMOMETER

BREWING THERMOMETERS

Stainless steel thermometer for measuring temperatures during boiling and fermentation. The long stem easily detects the temperature even from big kettles and fermenting containers.

Part No.	C5210	C6912
Material	Stainless Steel	Stainless Steel
Type	Waterproof	Waterproof
Size	1"	2.5"
Length	5"	12"
Temperature range (F°)	25- 125	60- 220
Price	Each \$3.20	Each \$5.00
Standard Packaging	150	25

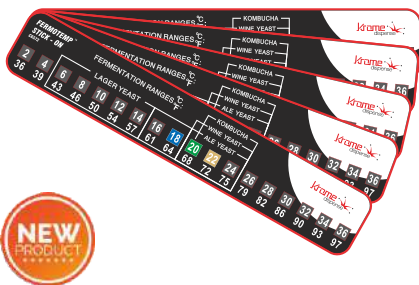

STICK ON THERMOMETER STRIP 36-97F (2-36C)

Part No.	C6572x5
Material	Plastic
Price	Each \$2.53

Features

- Easy To Read, Multi-use Display for Lagers, Wines, Kombucha & Ale
- Temperature Measuring Range: (36-97)*F or (2-36)*C
- Flexible & Waterproof
- Dimensions: (6.00 x 1.0) inch
- One time use Highly Accurate Color Changing Temperature Readings

FERMENTERS AND ACCESSORIES

HOSE CLAMPS

STEPLESS CLAMP

Stepless ear clamps seal both gas and beer lines effectively to barb fittings. Also known as Stepless Oetiker clamps, these are of Stainless steel 304 grade material. Smooth inside with no grooves or gaps secures your connections tightly without any scope for leaks.

Part No.	C140	C188	C189	C020
Material	Stainless Steel 304	Stainless Steel 304	Stainless Steel 304	Stainless Steel 304
Size	11.19mm	14.80mm	16.80mm	10.41mm
Price	Each	Each	Each	Each
	\$0.18	\$0.23	\$0.23	\$0.11
Standard Packaging	500	500	500	500

Part No.	C021	C022	C027
Material	Stainless Steel 304	Stainless Steel 304	Stainless Steel 304
Size	13.30mm	17.00mm	10.00mm
Price	Each 50+	Each 50+	Each 50+
	\$0.19 \$0.19	\$0.14 \$0.13	\$0.10 \$0.094
Standard Packaging	500	200	500

Features

- Simple sealing with a crimping tool.
- Not reusable.
- Stainless steel material makes it highly durable.
- Clamps Are Used In Keg Tubing Kits.
- Requires Clamper For Installation & Removal.

WORM CLAMP

Adjustable Worm drive screw clamp that covers a range of hose diameters. Slip it over a hose barb connection and tighten to seal it. Just keep a flathead screwdriver handy. Stainless steel construction makes it durable. Interlocked Worm Gear Hose Clamp is reusable too.

Part No.	C235	C225
Material	Stainless Steel 304	Stainless Steel 304
ID	7/16"-5/8"	3/16"- 5/16"
Price	Each	Each
	\$0.33	\$0.29
Standard Packaging	200	300

Features

- Screw Type clamps for vinyl or poly beer hose.
- Adjustable – works with almost all ranges of hose diameters
- Made of stainless steel 304.

REAGENT BOTTLE

This bottle is used for making yeast starter wort, Mix up your ingredients to make wort and boil the bottle in microwave. Make sure to close the cap of bottle while boiling. Cool it down and then store it till you need it. This bottle is made of borosilicate, which is durable, and won't crack with change in temperatures.

Part No.	C6581	C6580	C6579
Material	Glass	Glass	Glass
Capacity	1000ml	5000ml	500ml
Price	Each	Each	Each
	\$7.29	\$40.19	\$4.69
Standard Packaging	200	300	300

HYDROMETERS AND TEST JARS

TEST JARS

Use Test jars to take small samples of your brew. Dip the hydrometer and take down the reading to calculate the alcohol content. Decide on the need for further fermentation and duration better.

Part No.	C6497	C6498	C6500
Material	Plastic	Plastic	Plastic
Capacity	100ml	250ml	150ml
Price	Each \$0.59	Each \$1.05	Each \$2.88
Standard Packaging			09

Features

- Comes with markings.
- Easy to read, Fill and pour.
- Suitable for Beer and Wine Homebrew.
- Can be used with many other liquids.
- Hexagonal base design provides better stability.
- Friendly way to make accurate measurements.

HYDROMETERS AND TEST JARS

TRIPLE SCALE HYDROMETER

Part No.	C6573
Material	Glass
Price	Each \$5.06

Features

- Easy and accurate readings to know when your brew is ready.
- Can be used for both beer and wine making.
- Use a sample in a measuring jar for best results.
- Three scales to measure specific gravity, potential alcohol content and BRUX (sugar content of a solution).

GLASS BEAKERS

GLASS BEAKER

Hydrometers are used to check the sugar levels in your brew thereby helping you determine the alcohol content and decide on the need for further fermentation and duration. Use this standard 16.9 Oz glass beaker to fill a sample of your beer or wine and make it easier to take the hydrometer reading.

Part No.	C6550	C6551
Material	Borosilicate	Borosilicate
Finish	Raw	Raw
Capacity	1.6 oz (50 ml)	16.9 oz (500 ml)
Price	Each \$1.36	Each \$2.58
Standard Packaging	12	08

WORT OXYGENATION AND AERATION

TRI CLAMP FITTING

Part No.	C5207.50	C5207.51
Size	1.5" Tri clamp	1.5" Tri clamp
Type	Liquid In	Gas In
Price	Each \$7.78	Each \$7.78

Features

- Comes with check valve to prevent back flow
- This adapter will connect to a keg..
- Made from stainless steel
- Ideal for homebrewers

STAINLESS OXYGEN WAND WITH .5 MICRON DIFFUSION STONE X 16" LONG TUBING FITS 3/16" ID HOSE

The stainless steel rod in this unit is 16" long and has a 3/16" OD. You can either use 3/16" ID kegging beverage tubing or any other 1/8 to 3/16 diameter tubing.

Part No.	C6556	Standard Packaging:- 210
Length	16"	
ID	3/16"	
Price	Each \$12.31	36+ \$11.73

INLINE AIR FILTER

In-line air filter to filter out particles and let clean air in for aeration. Barbed inlet and outlet to secure hose over it.

Part No.	C6520
Filter Capacity	0.023 micron
Price	Each \$1.06

Features

- Use it anywhere you need to keep something sanitary.
- Both 1/4" and 3/8" tubing will attach to it, and it will snugly fit in any standard stopper as well.

CARBONATION STONE FOR 1/4" TUBING – 0.5 MICRON

Carbonation stone, also called a diffusing stone – speeds up the carbonation of beer. It has perforations of micron order (0.5 micron) that provides a larger surface area for the CO2 gas to come in contact with the beer and hence causes them to mix faster. Get the quick and great fizz by using this stone while dispensing beer.

Part No.	C6555	Standard Packaging:- 300
Material	Stainless Steel 316	
Barb	1/4" OD	
Diameter	1/2"	
Length	17/8"	
Price	Each \$13.35	12+ \$13.09

CARBOY ACCESSORIES

BIG CARBOY BRUSH BENDED – STAINLESS STEEL 304

Clean away your brew residue and avoid build-up with the easy to use Carboy Brush. The narrow mouth and hard to reach bottom makes cleaning carboys a difficult task. But not any more!

Part No.	C889	Standard Packaging:- 40	
Material	Stainless Steel		
Length	24"		
Price	Each	24+	
	\$6.74	\$6.42	

Features

- The long handle and bristles lets you scrub all the way to the bottom.
- Reaches and dislodges particles from difficult corners as well.
- Ease up your cleaning and enjoy brewing.
- This long handled brush is bent at a ninety-degree angle to clean those tough to get at spots in any size carboy.

C169

C170

CARBOY HANDLE

For lifting empty glass carboys.

Part No.	C169	C170
Lifting Capacity	5 gallons carboy	6.5 gallons carboy
Material	Nickel Plated Steel	Nickel Plated Steel
Color	Blue	Orange
Price	Each	Each
	\$2.44	\$2.38
	24+	50+
	\$2.37	\$2.27

Standard Packaging	50	50
--------------------	----	----

Features

- Wing nut on both sides for easy tightening operation.

Boil the Brew and do it right

Boiling the wort is important for many reasons - sterilising, enzyme deactivation, extracting starch into the water, introducing bitterness through hops and more. To get these benefits, you'll need to take care of the temperature and the duration of boiling - and, also find the right equipment for the process.

Here's where Krome steps in with its reliable and durable Boiling Equipment for a great brew.

WORT CHILLER

COPPER WORT CHILLER WITH GARDEN HOSE FITTINGS

Cool down your brew quick and easy with a wort chiller. A coiled narrow tube made of copper provides a large surface area and brings down the temperature to save time in the brewing process. Connect the inlet to water supply and place the outlet into a sink or drain and leave the water open throughout.

Part No.	C219	C779	Includes Hose and Nut for Home / Kitchen tap.	
Coil OD	3/8"	3/8"		
Coil Length	25 ft.	50 ft.		
Material	Copper	Copper		
Price	Each	Each	Each	4+
	\$46.92	\$46.00	\$85.41	\$81.34
Standard Packaging	04	100		

COPPER STAINLESS STEEL WORT CHILLER

Cool down your brew quick and easy with a wort chiller. A coiled narrow tube made of copper provides a large surface area and brings down the temperature to save time in the brewing process. Connect the inlet to water supply and place the outlet into a sink or drain and leave the water open throughout.

Part No.	C281	C993
Size	3/8" OD	3/8" OD
Coil Length	25 ft.	50 ft.
Material	Stainless Steel 304	Stainless Steel 304
Price	Each	Each
	\$28.65	\$48.01
Standard Packaging	01	

Features

- With Garden hose fittings.
- Brass Garden hose connection nut on other end.
- Includes 7 feet clear hose.
- Shipped in multiple of 2 pcs.

HOP AND GRAIN STEEPING

BREW SCREEN

The brew valve accessory that turns your pot into a mash tun. All stainless steel, 3/8" or 1/2" male NPT thread to fit the brew valve.

Part No.	C717	C720	C6720
Size	12"	12"	6"
Thread	3/8" NPT	1/2" NPT	1/2" NPT
Material	Stainless Steel 304	Stainless Steel 304	Stainless Steel 304
Price	Each	Each	Each
	\$3.51	\$3.29	\$2.29
Standard Packaging	90	32	75

Features

- This brew Screen help to filter out trub from your wort.
- 304 stainless steel Brew Screen 3/8" NPT.

HOP AND GRAIN STEEPING

BAZOOKA T SCREEN

Part No.	C718	Standard Packaging:- 32				
Length	10"					
Outlet	1/2" Copper					
Price	<table><tr><th>Each</th><th>6+</th></tr><tr><td>\$5.72</td><td>\$5.44</td></tr></table>		Each	6+	\$5.72	\$5.44
Each	6+					
\$5.72	\$5.44					

Features

- Excellent for straining out leaf hops in the boil kettle.
- Stainless Steel construction.

3" STAINLESS STEEL HOP STEEPER BALL

Stainless steel Hop strainer for home brewing beer. Keep your hops in this fine mesh ball to keep them separate and easy to remove from the wort. The strainer allows free movement of the wort to extract the bitterness and flavour hops impart to the beer.

Part No.	C6513		
Material	Stainless Steel		
Price	<table><tr><td>Each</td></tr><tr><td>\$2.29</td></tr></table>	Each	\$2.29
Each			
\$2.29			

Features

- Designed with a chain and hook end to use with any boiling pot/kettle.
- Easy to steep and clean.
- Ideal tool for steeping loose leaf hops.

STAINLESS STEEL PURE SCREEN

This Pure Screen is a Welded Stainless Steel Screen that fits directly on your racking cane or keg dip tube and filters out particles from the fermenter. It is easy to clean and sanitize and it won't harbor bacteria like plastic filters can because it is made of stainless steel.

Part No.	C711	Standard Packaging:- 200						
Material	Stainless Steel 304							
ID	3/8"							
Price	<table><tr><td>Each</td><td>12+</td><td>24+</td></tr><tr><td>\$1.16</td><td>\$1.14</td><td>\$0.90</td></tr></table>		Each	12+	24+	\$1.16	\$1.14	\$0.90
Each	12+	24+						
\$1.16	\$1.14	\$0.90						

Features

- Allows dry hopping to be done directly in the keg.
- Pellet hops have a tendency to clog the Pure Screen.
- It works far better with Whole Hops.

HOP AND GRAIN STEEPING BAGS

HOP STRAINING BAG

Hops add the bitter taste and unique flavour to the beer. They are added at the wort boiling stage. It is best to use a bag instead of adding directly since they will need to be removed before moving to fermentation. Here we have Nylon Straining bags that allow flavour infusion without any obstruction while keeping the hops contained to easily remove from the wort after the boiling process. Available in different sizes for use with brew batch sizes.

Part No.	C771	C772	C773	C6570	C6571	C6569
Size	8" x 9"	8" x 15"	24" x 24"	14.5" x 5.25"	27.5" x 5"	10.5" x 5.5"

Standard Packaging	300	100	

Features

- Mesh no-100 mesh.
- For use with fresh or pelletised hops.
- Closable with string.

Mesh Bag with Drawstring (Brew-in-a-Bag)

A huge mesh bag with a draw string , is very economical in all grain system . It cuts the cost of parts and labour but provides the same result - Great Beer!

Part No.	C6568
Size	22" x 23"
Material	Nylon Mesh
String	With String
Price	Each
	\$6.40

HOP AND GRAIN STEEPING

BREW IN BASKET

Part No.	C6596	C6597
Material	Stainless Steel 304	Stainless Steel 304
Micron	300 Micron	300 Micron
Diameter	8 3/4"	12 1/4"
Length	15 1/2"	18 1/2"
Price	Each \$25.60	Each \$35.07

Features

- Material SS304
- Filtration Rate = 300 micron mesh design makes the filter more refined, has an exquisite filtering performance.
- Easy to use and clean.
- Appropriate size and lightweight.

HOPPER FILTER STRAINER 400 MICRON-11.5"

Part No.	C6588	C6589	C6592	C6593

Price	Each \$5.72	Each \$8.20	Each \$11.92	Each \$16.86

Features

- Material SS304
- Filtration Rate = 300 micron mesh design makes the filter more refined, has an exquisite filtering performance.
- Easy to use and clean.
- Appropriate size and lightweight.
- Also can be used as a filter part for coffee grinder, filter tank, water purifier, etc.

KETTLE SPIDER FOR HOPS

Kettle spider to hang hops from a straining bag. The three spokes provide support and balance on the kettle. The ring at the center is where you'd set the bag up with hops inside. This is a great way to infuse the hop flavours into your brew while boiling. Hops are now at the center of the boiling kettle which keeps them in constant contact with the wort throughout. The strainer bag keeps the hops together and easy to remove after boiling.

Part No.	C851	Standard Packaging:- 12	
Inner Diameter	3-3/4"		
Length of Arms	9"		
Price	Each \$7.94	12+ \$7.56	

Features

- Makes Hop Additions Easier.
- The Kettle Spider fit mostly in all kettles.
- Great For New Brewers.
- Makes bags easier to use with hops because it is open throughout the boil

Homebrewing requires a careful selection of recipes, ingredients, equipment and, let's not forget the Brewing Hardware. While choosing the right equipment is a given, neglect not the smaller components that hold everything together. Needed at every step either as fittings, clamps, valves or disconnects, Krome has the choicest collection of the Brewing Hardware with a long lasting performance.

POT AND KETTLE ACCESSORIES

BASIC KETTLE CONVERSION KIT

Part No.	C218	C762
Material	Brass	SS 304
Price	Each	Each
	\$10.57	\$14.51
Standard Packaging	20	20
Features		

- Easily convert an appropriate vessel into a kettle without welding.
- All that is needed is a 7/8" holesaw, step drill or hole punch & pliers.

SANITARY BALL VALVE

Part No.	C763	C762.01
Material	Stainless Steel 304	Stainless Steel 304
Thread Size	1/2" NPT Threads	1/2" NPT Threads
Price	Each	Each
	\$12.25	\$19.16
Standard Packaging	16	
Features		

- Sanitary ball valves are easy to take apart and clean.
- The seals are made of Teflon to resist high temperatures.
- Comes with a locking handle to prevent accidental opening.

KETTLE DIVERTER FOR BOIL KETTLE

Leave the grain and hop sediment behind in the boiling pot and get the clear wort to the next stage. With all the carbs and flavours extracted from the grain and hops respectively, it is best to filter them out and here is a tool to make that job simpler. A U shaped diverter with 1/2" MPT that can be coupled with 1/2" FPT fitted on the inside of a kettle. It draws the wort from the side instead of the middle of the boiling pot.

Part No.	C750	Standard Packaging:- 108	
Material	Stainless Steel		
Price	Each	24+	
	\$6.03	\$5.86	
Features			

- Designed to pull from the side of the kettle instead of the middle.
- This helps reduce trub from entering your fermenter.
- By adjusting the height where you install, you can also control how much wort you leave behind in the Kettle.
- Has a 1/2 inch MPT fitting on the end, that screws into the coupler placed inside heavy duty kettles.

POT AND KETTLE ACCESSORIES

1/2" STAINLESS STEEL KETTLE CONVERSION KIT COUPLING

Coupling tube with double sided 1/2 " female npt threadings for providing connections between homebrewing hardware components. Used in kettle conversion and for other Male NPT fittings.

Part No.	C167	Standard Packaging:- 150			
Thread	1/2" NPT				
Material	Stainless Steel 304				
Finish	Stainless Steel				
Price	<table><tr><td>Each</td><td>12+</td></tr><tr><td>\$2.25</td><td>\$2.14</td></tr></table>		Each	12+	\$2.25
Each	12+				
\$2.25	\$2.14				

SS BULK HEAD

Bulkhead for weldless kettle conversion to use with ball valves. This becomes extremely handy to transfer wort and brews and the smooth unthreaded surface makes cleaning easy too.

Part No.	C767	Standard Packaging:- 100
Thread	1/2" NPT	
Material	Stainless Steel 304	
Finish	Stainless Steel	
Price	Each	
	\$5.31	

LIQUOR TANKS , MASH TUNS AND ACCESSORIES

Standard Packaging	12	12	12	12	08

- Features
- Make sure to choose the appropriate size for your kettle.
 - Great for making the switch to all grain brewing.
 - Converts your brewpot into a mash tun.
 - Made of high quality perforated stainless steel.

HEX NUT FOR FALSE BOTTOM ELBOW

Part No.	C380.02	Standard Packaging :- 400
Hex Diameter	29.9mm	
Thread	1/2" BSP	
Material	Stainless Steel 304	
Price	Each	100+
	\$3.46	\$3.29

- Features
- Different sizes available according to false bottom size.

FALSE ELBOW

Part No.	C380.3	Standard Packaging :- 200
Thread	1/2" MPT	
Material	Stainless Steel	
Price	Each	
	\$3.87	

MASH PADDLES

PLASTIC MASH PADDLE

Mashing is a critical step in the beer making process – where the malted grains and other cereal starches are converted to sugars which is then fermented with yeast later, giving us the alcohol content. Use the 24" or 28" mash paddle, that is convenient for any brew batch size. Made of durable food safe plastic, this mash paddle is a must have in your homebrewing accessories.

Part No.	C6624	C6528

STAINLESS QUICK DISCONNECTS

MALE STAINLESS STEEL QUICK DISCONNECT WITH 1/2" BARB

Make your brew connections – smooth and easy with quick disconnects. Use this quick release fittings with brew pot ball valves and hoses to transfer wort for next steps. No more stress for cleaning since putting them back together is a breeze now!

Part No.	C920	Standard Packaging:- 200
Material	Stainless Steel 304	
Barb Size	1/2"	
Price	Each	
	\$1.96	

Features

- 1/2" Barbed to Male Stainless Steel Quick Disconnect.
- Our Quick Disconnects are Stainless Steel and High Quality.

MALE QUICK DISCONNECT

Fits in C753

Part No.	C751	Standard Packaging:- 200
Length	45.65mm	
Barb Size	3/8"	
Material	Stainless Steel 304	
Price	Each	
	\$1.97	

Features

- The quickly disconnect will head wold pressure for typical brewing application when moving liquids at 60 PSI or less.

MALE QUICK DISCONNECT

Make your brew connections – smooth and easy with quick disconnects. Use this quick release fittings with brew pot ball valves and hoses to transfer wort for next steps. No more stress for cleaning since putting them back together is a breeze now!

Part No.	C752	Standard Packaging:- 200
Length	45.07mm	
Thread	1/2" MPT	
Material	Stainless Steel 304

HOSE BARB

1/2 FPT X 1/2 HOSE BARB

This Female NPT X Hose Barb is a transition adapter between a 1/2" male NPT and 1/2" hoses in homebrewing hardware assembly. Use a worm clamp to secure the connection further.

Part No.	C6812	Standard Packaging:- 150
Material	Stainless Steel 304	
Finish	Brushed Stainless	
Price	Each \$1.97	

Once the brew is suitably fermented, just one more thing remains before it can be enjoyed - Racking. It is an act of transferring the brew from the fermenting container into a secondary fermenter or bottles for later consumption. Racking and Bottling go hand-in-hand and hence Krome has put together racking canes, bottle caps, manual capping tools and more under this category

BEER RACKING AND SIPHONING

RACKING CANE

Racking cane is an important home brewing tool. It is used to transfer wort and beer from one vessel or container to the at different steps of brewing. Racking cane height depends on the depth of fermenter.

Part No.	C171	C165	C822
Size	3/8"x24"	3/8"x30"	3/8"x16"
Material	Stainless Steel 304	Stainless Steel 304	Stainless Steel 304
Finish	SS Polished	SS Polished	SS Polished
Price	Each	Each	Each
	50+	50+	10+
	10+	10+	
	\$2.13	\$2.41	\$1.70
	\$2.05	\$2.32	
	\$2.09	\$2.37	
Standard Packaging	100	100	

Features

- It is a hollow tube through which the liquid rises and can be directed to a container with the help of a tube attached.
- It is also used in beer bottling.
- It is sometimes used for mixing brew as well.

RACKING CANE REPLACEMENT TIP

As it is made of plastic , it works better than steel tip , as the steel tip may fall into the carboy due to its weight .Also it does a good job in minimizing sediment in racking process.

Part No.	C166	Standard Packaging:-
Colour	Black	300
Material	Plastic

Features

- Silicon material, food grade hose.
- Wort and beer siphoning transfers during brewing and bottling.

VINYL HOSE – SOLD PER FOOT

Translucent Braided hose for draft beer dispensing. This beer line tubing is of durable Vinyl material and has a 3/8" inner diameter. Ideal for home as well as commercial applications. Choose appropriate length based on your use.

Part No.	C2129X50	C2128X50
Material	Vinyl	Vinyl
OD	5/8"	3/4"
ID	3/8"	1/2"
Price	Each \$22.93	Each \$27.09

Features

- Clear, see through tube for draft beer dispensing system.
- Made of quality Vinyl material.
- 3/8" inner diameter and sold per foot
- For homebrewing as well as commercial establishments.

BEER BOTTLE CLEANING EQUIPMENT

JET BOTTLE WASHER

Jet bottle washer attaches to any common faucet and delivers a blast of water to clean bottles and carboys.

Part No.	C148	Standard Packaging:- 50	
Material	Brass		
Finish	Plated Brass		
Price	Each	50+	
	\$3.89	\$3.71	

Features

- With garden hose fitting that connects easily to a utility sink.
- A quality brass construction ensures the product is durable.

BEER BOTTLING

FAUCET ADAPTER

Fits most house hold faucets. Suitable for C148.

Part No.	C248	Standard Packaging:- 200	
Material	Brass		
Finish	Plated Brass		
Price	Each	24+	
	\$1.25	\$1.19	

Features

- Adapts your jet bottle faucet so you can screw on a garden hose.
- Fits both male & female faucet threads to adapt to a standard hose.

GROLSCH GASKET FOR FLIP TOP BOTTLES

Reusable food grade gaskets to effectively seal flip-top bottles after filling them with your home brewed beer. Place the Grolsch Gasket on the bottle mouth and press the cap shut to keep the beer freshness, flavour and gases intact until it is ready for drinking after conditioning.

Part No.	C6614x25	C6614x100
Material	Rubber	Rubber
Finish	Raw	Raw
Price	Each	Each 12+
	\$1.12	\$4.19 \$3.99
Standard Packaging	80	20

Features

- Fits both plastic and ceramic style flip top caps.
- Made from Food Safe certified materials.
- Can be easily Re-Used for 5 or 6 Times.
- Preserves your beer, wine and spirits.

BEER BOTTLING

BENCH BEER BOTTLE CAPPER

Part No.	C6526
Material	SS
Price	Each \$33.51

Features

- Adjustable height manual bottle capper.
- Works with a wide range of bottle sizes.
- Place the cap over the bottle and press the lever down to seal it in place.

Standard Packaging

MANUAL BEER BOTTLE CAPPER

Ready to bottle your brew? Along with the bottles, you'll also need the caps and a capping tool that we refer to as the Beer bottle capper. The cap is placed on the bottle mouth and pressed to create a seal around it with the help of this manual bottle capper and you are good to store the bottle away. The hand press bottle capper can be used with bottles in many shapes and sizes.

Part No.	C6516
Material	Plastic
Color	Red
Length	7.4"
Width	2.5"
Price	Each \$17.80

Features

- Emily Plastic Wing Capper.
- Economical alternative to a bench capper.
- Made of high-strength ABS material.
- You can seal your homemade brews into beer bottles quickly and easily.
- Applicable to: Standard beer bottles, soda pop bottles, and champagne bottles.

BEER BOTTLE CAPS (PACK OF 100 PIECES)

Ready to bottle your brew? Along with the bottles, you'll also need the caps and a capping tool to seal them. Here is a pack of 100 Bottle crown caps of 29mm diameter. The cap is then placed over the bottle, after the beer is filled and pressed to seal it with the help of the bottle capper. The bottle is now ready to be put away.

Part No.	C6529x100	Standard Packaging:- 12
Material	Mild Steel	
Color	Gold	
Length	1.02"	
Weight	2g	
Price	Each \$1.35	

Features

- Easy to Use.
- Helps reduce oxidation and premature staling.
- Perfect for beers that you plan to age.

BEER BOTTLING

BEER BOTTLING HOMEBREW BUCKET PLASTIC TAP

It can be used with any standard fermenting and bottling bucket with a 1" drilled hole. Attach 3/8" I.D. tubing and your bottle filler for easier bottling .

GLASS BEER GROWLER WITH HANDLE AND CAP – 64 OZ

We have a fantastic option to bottle your brew and sit back and enjoy it for days to come. Glass Beer Growler With Handle and cap is not just any growler but is a uniquely designed 64 Oz reusable one that comes with a convenient handle – easier to carry and pour beer indoors and outdoors- it's a must " to go with your picnic " thing.

Part No.	C6510x6	Standard Packaging:- 06		
Material	Glass			
Capacity	64 OZ			
Color	Amber			
Price	<table><tr><td>Each</td></tr><tr><td>\$22.12</td></tr></table>	Each	\$22.12	
Each				
\$22.12				

Features

- No Logo – Printed options available*
- Amber colour of glass protects beverage from UV Rays.
- 64 oz Capacity about a Half gallon capacity.
- Thick Glass construction.
- New ultra-modern shape glass.

GROWLER COLLAR

Part No.	C6527
Price	Each \$12.66

Features

- Drains and dries growlers.
- Suitable for 64OZ growler (C6510).
- Growlers should be allowed 12-24 hours to dry.
- Soft Silicon feet prevent the growler from scratching your counter.

STATIONARY BOTTLE DRAINER

Easily air dry bottles after sanitizing with this Beer bottles drying tree. Keep your bottles clean and dry for use with next brew batch. This is a Plastic screw type bottle drying tree.

Part No.	C6602	C6603	C6605
Material	PLASTIC	Plastic	Plastic
No. of bottles	100	50	20
Price	Each \$22.06	Each \$18.32	Each \$9.04

Features

- Use with up to 20,50 & 100 bottles
- Invert and screw mount to dry
- Made of plastic and handy for home brewers.

SANITIZER RINSER PUMP

Fill the bottle rinser pump with sanitizer solution or water. Invert a bottle over the white stem and press down. This releases high pressure jet streams that rinse and sanitize the bottles.

Part No.	C6601
Material	Plastic
Capacity	1.5L
Price	Each \$7.75

SINGLE STEP NO RINSE CLEANER FOR BEER AND WINE

Part No.	C6576
Material	Precarbonates and sodium carbonate peroxyhydrate
Color	White
Makes	2 Gallons
Price	Each \$1.23

Features

- Pouch has 41 gms of cleanser powder. Mix this in 7.5 litres of warm water to prepare the cleaning solution.
- For beer fermenters, bottles and other equipment.
- Completely safe to use. Doesn't leave any smell or stains behind.
- Clean regularly to keep your brewing components hygienic and avoid contamination.

Brewing is about big mashtuns, kettles and fermenter buckets as well as the smaller equipment. Mash paddles to extract the best from your grains, brew spoons for stirring mash and wort, agitating rod for mixing and aeration and more.

Krome has an entire category dedicated to these brewing tools in different materials, lengths, with or without hole varieties, all for you to choose according to your batch sizes and needs.

SPOONS , FUNNELS AND ACCESSORIES

C999

BREWING SPOON

The long 21" brew spoon made of Stainless steel is a must have homebrewing accessory. Use it for stirring and mixing the brew especially after transferring into a carboy. The other end also has a small paddle and works for narrow mouth carboys as well. The product is heat and corrosion resistant and hence can be safely used with hot brews as well.

1/4" FFL OUTLET X 1/4" MFL INLET DISCONNECT CHECK VALVE – STAINLESS STEEL

Backflow preventer for carbonated beverages Double Check Valves are designed for the protection of the water supply from carbon dioxide gas and carbonated water.

Part No.	C2170	Standard Packaging:- 200
Material	Stainless Steel 304	
Internal Thread Size	1/4" Female (7/16"-20 UNF)	
Thread Size	1/4" Male (MFL) (7/16"-20 UNF)	
Price	Each	
	\$4.26	

Features

- Suitable for Post-Mix Carbonated Beverages and other dispensing equipment for tea and coffee.
- 1/4" stainless steel check valve.
- Perfect for Vertical or horizontal installation this gives additional convenience and ease to multi-application
- Permanent marking shows flow direction

FLARE SWIVEL NUT AND STEM SET 3/8"BARB

Hose barb with attached stem to connect to a MFL thread. Use Swivel nut fittings with Gas or Liquid disconnects with Threaded ends for Corny kegs. Simply slide the gas or beer tubing on the barb end to connect the keg with the rest of the system.

Part No.	C1451	Standard Packaging:- 300
Body Thread	3/8"	
Color	Silver	
Weight	0.04Lbs	
Length	0.43 mm	
Height	1.41 mm	
Price	Each	
	\$1.19	

Features

- 3/8" Barb
- Makes it possible to attach your 3/8 inch
- Great for Home and Commercial Draft System

KEGGING PARTS

STAINLESS STEEL OVAL KEG LID

This keg lid features a ball lock gas post which is attached to a piece of food grade hose, that has a stainless steel 0.5 micron diffusion stone on the end of it. The stone will hang down in the bottom of your keg of cold brew coffee (or other beverage) and allow the nitrogen (or other gas you may be using) to infuse into your beverage from the bottom up. This makes infusing cold brew coffee for serving nitro coffee on draft much easier and faster than having to shake your keg

Part No.	C6536	C6489
Material	Stainless Steel	Stainless Steel
Price	Each \$39.16	Each \$18.14
Standard Packaging	12	

Features

- Carbonation keg lid has integrated pressure relief valve and this PRV automatically opens up at 70 psi (excess co2 pressure).
- One of the unique features about this Carbonation Keg Lid dry hop holder. a small clip welded at bottom of soda keg lid for easy hanging hop bags with a string or hop ball chain.

LIQUID DIP TUBE 5 GALLON – BALL LOCK 23.22"

Dip tubes are used in kegs either for distributing gas or bringing up beer to the valve. Liquid dip tubes are meant particularly for drawing out beer from the keg. A Beer out Dip Tube is a long narrow metal pipe running along the centre of the keg. The pressure of the incoming gas pushes the beer up the dip tube and into the beer hose connected.

Part No.	C2367	C919	C2368
Material	Stainless Steel 304	Stainless Steel 304	Stainless Steel 304
Color	Silver	Silver	Silver
Height	589.7mm	335mm	364.9mm
Price	Each \$3.44	Each \$2.50	Each \$3.68
Standard Packaging		50+	

Features

- Heavy Duty Stainless Steel Constructed for Durability.
- Replacement for gas in dip tube on home-brew kegs.
- Stainless Steel with O-ring.
- For Home-brew Draft Beer Cornelius Corny Keg.
- This is a replacement dip tube for Ball Lock OR Pin Lock kegs.

KEG LID O-RING

Replacement O-Ring for cornelius and home brew kegs / Soda Tanks. Superior material for long life.

Part No.	C249	Standard Packaging:-	100
Material	Rubber		
Price	Each \$0.61	24+ \$0.58	

Features

- This is the O-ring that goes on the top of keg lids. This is a universal for almost all keg lids.

GAS DIP TUBE - GAS IN

This is a standard Dip Tube for Gas-IN on a Cornelius keg. Corentlies Gas Dip Tube includes new O-ring. Many Firestone kegs used a smaller diameter plastic tube. We would recommend drilling out this hole and replacing with this metal dip tube.

Part No.	C918		Standard Packaging:- 300
Material	Stainless Steel 304		
Length	38mm		
Price	Each	50+	
	\$1.19	\$1.13	

Features

Features

- Stainless Steel.
- Includes O-Ring.

DIP TUBE O-Ring

Part No.	C916
Material	Rubber
Price	Each
	\$0.21

Features

- Use this dip tube O-ring to replace worn out rings inside your keg. This ring will fit both the gas in and liquid out dis tubes of a cornelius keg.

O-RING REPLACEMENT SET FOR CORNELIUS KEGS

Part No. C970		Standard Packaging:- 200	
Material	Rubber		
Price	Each	100+	10+
	\$1.16	\$1.05	\$1.11

Features

- Keg O-rings replacement set this 5 piece set will easily replace any rotted O-rings for your ball lock cornelius keg.

UNIVERSAL POPPET VALVE

Part No.	C854	Standard Packaging:- 400	
Material	Stainless Steel		
Price	Each	100+	
	\$0.75	\$0.72	

Features

- Fits all ball and pin lock style keg posts.
- Easy to install.

PIN LOCK DEPRESSURIZER , STAINLESS

Depressurizer to safely release excess CO2 pressure from a Pin-lock keg.

Part No.	C481	Standard Packaging:- 100
Material	Stainless Steel 304	
Price	Each	50+
	\$2.32	\$2.21

Features

- Made of stainless steel material for durability.
- This is a handy product that is easy to fit in and use.
- It provides a manual depressurizing feature that is normal missing in pin-lock kegs which only come with an automatic pressure relief valve.

BALL LOCK POST WITH 1/4INCH BULKHEAD

Ball lock posts has a 1/4 inch BSP thread , It can be attached to a wide range of other fittings as well.

Part No.	C5239
Material	Stainless Steel 304
Price	Each
	\$4.78

PLASTIC PRESSURE RELIEF VALVE

It is the most common relief valve. It fits most Cornelius and Firestone style kegs . It has a long body with spring, and grey top with pull ring.

Part No.	C5240
Material	Stainless Steel 304
Maximum Pressure	100 psi
Price	Each
	\$1.97

BALL LOCK KEG (FREE FLOWING) QD JUMPER POST FOR CLEANING

Make your cleaning day a breeze with this QD Jumper post.
Pull back, insert and release the lock groove to make the connection – yes, that simple! No need to remove the Ball lock disconnects at all. The cleaner solution goes right through the Ball Lock Keg cleaning post. Connect multiple beer lines and Ball lock kegs in a daisy chain and clean them all in one go.

Part No.	C2366
Material	Stainless Steel 304
Finish	Electropolish
Price	Each
	\$1.98

Features

- Made of Stainless steel material.
- Includes O rings on both ends.
- Jumper between the beer lines for easy cleaning.
- Ball lock kegs are widely used in home-brewing. Hence a handy tool for all home-brewers.

Draft beer system consists of myriads of components – all broughttogether and connected using different kinds of caps, clamps, valves,etc. Specialized fittings such as Tri-clover connectors, Quick Disconnect of different types are part of this category along with tail-pieces

BREWERY FITTINGS

TRI-CLAMP BLANK 1.5"

A stainless steel plate to close, or blank off an outlet. These Stainless connectors are easy to clean and disassemble. Tc 1.5" is the most popular size for Craft breweries around the globe.

Part No.	C5206		
Material	Stainless Steel 304		
Finish	Electro Polish		
Colour	Silver		
Price	<table><tr><td>Each</td></tr><tr><td>\$1.81</td></tr></table>	Each	\$1.81
Each			
\$1.81			

Features

- High Pressure Durable.
- Corrosion resistance and high temperature resistance.
- Used for permanent sealing.
- Suitable for use in food, beverage, and dairy applications.
- Easy to use.

1.5" TC SHANK FOR SAMPLING BEER FAUCET

Sample beer with this Handy Tri-clamp adapter shank in brewing. Attach standard US beer faucet on the fermenting vessel in two simple steps. Fit the tap on adapter shank and then to the TC fitting on your fermentor.

Part No.	C5208		
Material	Stainless Steel 304		
Finish	Brushed Stainless		
Suitable For	US Standard Tap		
Price	<table><tr><td>Each</td></tr><tr><td>\$13.31</td></tr></table>	Each	\$13.31
Each			
\$13.31			

Features

- 1.5" TRI CLAMP.
- SS 304 material.
- Connect with US standard tap.
- Installation is easy and quick also.
- Easy to maintain and fix.

FERRULE GASKET FOR 1.5" TRI-CLOVER

Ferrule gasket provides leak-proof Tri-clamp connections. Made of flexible and durable rubber, this TC gasket comes in white colour. Make sure to position the ring correctly between the two ferrules before locking the clamp.

Part No.	C3587X20		
Material	Rubber		
Finish	Raw		
Price	<table><tr><td>Each</td></tr><tr><td>\$11.63</td></tr></table>	Each	\$11.63
Each			
\$11.63			

Features

- Style: Tri-Clamp.
- Most economic.
- High Chemical , Acid Resistance.
- Gasket Size For 1.5 Inch Tri-Clamp Fittings.
- Popular application for all standard size tri-clover.

STAINLESS STEEL 1/4" HOSE BARB TO 1.5" TC CAP

Connect a 1/4 " I.D. hose to this clamp ferrule to attach to a TC fitting on your brewing equipment. Especially useful in transferring brew or hot wort after boiling.

Part No.	C6566
Material	Stainless Steel
Finish	Electro Polish
Hose Barb O.D.	1/4"
Price	Each
	\$3.18

Standard Packaging:- 100

Features

- Made out of 304 Stainless Steel.
- 1/4 " OD Hose Barb.
- Designed for use with 1/4" ID tubing.
- 13/16 " barb portion length.
- 1 1/2 " Total Length.
- For connecting pipes or fittings of different types.
- Barbed fitting for a tight seal on hoses.

HEAVY DUTY STAINLESS STEEL TRI-CLOVER FITTING – 1.5" TC CLAMP

Use this TC clamp with a gasket and same sized ferrules to make easy connection. Position the ferrules and gasket in between them properly and tighten to make the fitting leak-free. Simple to assemble and remove to clean.

Part No.	C6565
Material	Stainless Steel 304
Suitable for	1.5" TC Clamp
Price	Each
	\$7.04

Standard Packaging:- 50

Features

- Made of 304 stainless steel, corrosion resistant.
- For use with 1.5" TC fittings.
- Does not come with silicon gaskets.
- Fit for all other stuff sanitary fittings.
- Easy tighten thumb screw with wing nut.
- Providing a clean efficient connection for valves and hoses.
- Applicable for dairy, food, beer, beverage, pharmacy, cosmetic, Oil, Waste water etc.

STAINLESS STEEL TRI-CLOVER FITTING

Provides a clean interface between 1/2 " Female NPT fitting to attach to a TC fitting on your brewing equipment. Useful on boiling or fermenting apparatus.

Part No.	C6564	C5203
Material	Stainless Steel 304	Stainless Steel 304
Finish	Electro Polish	Electro Polish
Thread	1.5" TC X 1/2" MALE NPT	5/8" BSP X 1.5"
Price	Each	Each
	\$3.57	\$9.04

Features

- This is constructed from 304 Stainless Steel with a 1/2" male NPT fitting.
- Easy to use and fix.
- Simple to assembly. No male or female parts.
- Easy to disassemble for cleaning and put back every time.
- Adapter for connecting pipes or fittings of different types.
- Suitable for 1.5 " Tri Clamp / Clover / Sanitary.

TC COMPATIBLE CAP STYLE REDUCER FROM 1.5" X 1/2"

Part No.	C6611
Material	Stainless Steel
Bore Inside Diameter	0.375"
Overall Length	1.375"
Price	Each
	\$6.05

STAINLESS STEEL 1/2" HOSE BARB TO 1.5" TC CAP

Tri-clamp compatible tailpiece for gas or beer tubings. Connect a 1/2" I.D. hose to make various connections in the draft beer system. Tri-clamp fittings are simple to assemble and also easy to open for cleaning. There are no threads which makes it an ideal choice for sanitary brewing connections.

Part No.	C6612				
Material	Stainless Steel				
Finish	Electro Polish				
Tube ID	1/2" ID				
Price	<table><tr><td>Each</td><td>12+</td></tr><tr><td>\$2.58</td><td>\$2.46</td></tr></table>	Each	12+	\$2.58	\$2.46

Standard Packaging:- 40

Features

- Most economic.
- Applicable for all standard size tri-clover or tri-clamp and tube fittings.
- Easy to use and connect.
- Gasket Size For 1/2 inch Tri-Clamp Fittings.

WELDLESS THERMOWELL KIT – 1/2" FEMALE NPT (2" PROBE)

Install this thermowell on your brew pots and kettles to protect the temperature sensor from direct exposure to boiling wort while also giving accurate readings. The thermowell kit doesn't need welding and can easily be mounted by its threading.

Part No.	C6567	C6615	C6616	C6617
Material	Stainless Steel 304	Stainless Steel 304	Stainless Steel 304	Stainless Steel 304
Length	2"	4"	6"	12"
Price	Each	Each	Each	Each
	\$5.14	\$5.26	\$5.33	\$5.56
Standard Packaging	50			

Features

- This tubular fitting is made from a solid bar stainless steel stock.
- It is gun drilled to ensure a long, straight, and uninterrupted bore.
- It is mounted to the process stream by means of threading, welding, or flanging.
- This weldless thermowell kit can be added to any pot or kettle into an existing bulkhead or by drilling a 7/8 " hole into the brew kettle.
- It comes with a 1/2 " female pipe fitting for a more compact look as well as easy installation.

THREAD-IN THERMOWELL – 1.5" TC

Thermowells are indispensable to brewers. It is especially useful in boiling wort which requires precise temperatures. Stainless steel brewery approved Thermowell with 1.5 " TC x 4 " Long Stem and 1/2 " NPT Female. The tri-clamp fitting on one end makes it easy to attach to your brew pot. It is simple to set up and dismantle for cleaning as well.

Part No.	C5244	C5245	C5246	C5247
Material	Stainless Steel 304	Stainless Steel 304	Stainless Steel 304	Stainless Steel 304
Length	4"	6"	12"	20"
Price	Each \$5.63	Each \$5.87	Each \$6.65	Each \$7.69

Features

- 304 stainless steel strength and resistance to corrosion.
- Used for food, beverage, and dairy applications.
- Suitable for long-term use, not easy to damage and not corrupt.
- Installation is easy and quick also.

TRI-CLAMP DROP-IN THERMOWELL – 1.5"

Use Drop-in Thermowell and protect the sensor from the effect of direct high heat. Get accurate measurements as well as increase sensor's life. Hence, it is highly recommended in beer brewing – commercial as well as home brewing.

Part No.	C5233	C5234	C5235	C5236	C5237	C5238
Material	Stainless Steel 304	Stainless Steel 304	Stainless Steel 304	Stainless Steel 304	Stainless Steel 304	Stainless Steel 304

Price	Each \$2.77	Each \$2.90	Each \$3.08	Each \$3.20	Each \$3.32	Each \$3.49

Features

- 304 stainless steel strength and resistance to corrosion.
- Used for food, beverage, and dairy applications.
- Suitable for long-term use, not easy to damage and not corrupt.
- Installation is easy and quick also

THERMOWELL STOPPER

Part No.	C952	Standard Packaging:- 30
Material	Stainless Steel 304	
Price	Each \$2.27	

Features

- This carboy thermowell is used in conjunction with the digital controller.
- It is exceptionally useful during the start of fermentation when the lag b/w ambient temperature in the refrigerator and actual temperature in the carboy can vary greatly. Designed to fit either 3, 5, 6 or 6.5-gallon glass carboys or any other similarly sized opening hole.

TEMPERATURE CONTROL THERMOSTAT USA STANDARD

Maintain the correct recommended temperature to get the best results during fermentation. This temperature sensor and controller lets you set high and low temperatures to stay within the range you need.

Part No.	C6575
Range	-50° to 90° C / -58° to 210° F
Input Power	100 to 240 VAC / 50-60 Hz
Price	Each \$47.54

Features

- Simple and straightforward to install and use.
- Gives digital reading with Centigrade or Fahrenheit units.
- Alarms for temperature going high or low over the set range.
- Temperature Control Range : -50~99 °C / -58~210 ° F

TANK BREATHER (1.5")

Part No.	C5217	C5218
Material	Stainless Steel 304	Stainless Steel 304
PSI	15	30
Price	Each \$102.41	Each \$102.41

Features

- Easy to attach and remove.
- No need to disassembled for cleaning.
- Entire breather can be soaked and rinsed.

TRI CLOVER EXTENSION TUBE (1.5")

Part No.	C5222	C5223	C5224	C5226	C5227
Material	Stainless Steel 304	Stainless Steel 304	Stainless Steel 304	Stainless Steel 304	Stainless Steel 304
Length	2"	3"	4"	6"	12"
Price	Each \$4.78	Each \$5.05	Each \$5.49	Each \$6.37	Each \$7.74

Features

- Factory welded and polished inside and out to provide a smooth, leak-free component.
- Easy to clean.

STAINLESS STEEL TRI- CLAMP SIGHT GLASS

Part No.	C5216	C5232(Compact Style)
Material	Stainless Steel 304	Stainless Steel 304
OD	1.5"	1.5"
Price	Each \$33.45	Each \$11.33

Features

- Transparent glass for viewing brews during fermentation or other processes
- Stainless steel material with sanitary TC fittings.
- Easily attach, remove or replace as desired.
